```

This small world time clock is ideal for installation in a smaller office, incident room or reception area.
See the local time clearly and precisely in all of your trading regions, operational areas or centres of interest.
Choose up to 15 time zones in one compact unit. You select your required zone location names to be above (part code 4740N/x.025.x) or below (part code $4741 \mathrm{~N} / \mathrm{x} .025 . \mathrm{x}$ ) the time information.

The $\mathbf{1 2}$ or $\mathbf{2 4}$-hour time display uses selected bright $\mathbf{2 5 m m}\left(\mathbf{1}^{\prime \prime}\right)$ high green or red led digits.
All versions are 10/100Base-t Ethernet NTP enabled for simple, low-cost installation and control via your existing Ethernet network.

## 20 Metre Viewing Distance

4750N. 05 digital world time zone wall clock and day-date calendar

## Key Features

Designed for your conference or board room, situation room or operations centre the 4750 N range of digital time zone clocks provides a precise multi-time readout of local time in all of your trading regions, operational areas or centres of interest together with a multi-language calendar.

You can specify your digital time zone world clock with your choice of up to 15 timezones.

The 12 or 24 -hour time display uses 50 mm (2") high blue, green, red or yellow/amber digits.

Your selected zone location labels can be above (part code 4750N/x.05.x) or below (part code $4751 \mathrm{~N} / \mathrm{x} .05 . \mathrm{x}$ ) the zone time digits and the names can be either:

Printed in white - lowest cost option.
User programmable \& illuminated with 30mm (1.2")
All versions are 10/100Base-t Ethernet NTP enabled for simple, low-cost installation and control via your existing Ethernet network.

## Key Features

Our most popular range of digital world time zone clocks is in service across the world in military and civilian C4i and security facilities, financial dealing rooms, transport hubs and similar operational areas.

You can specify your digital world clock with your choice of up to 15 time-zones to show the local time clearly and precisely in all of your trading regions, operational areas or centres of interest.

The 12 or 24-hour time display uses 57 mm (2.3") high blue, green, red or yellow/amber/ amber digits.

You can specify your selected zone location labels to be above (part code 4740N/ x.057.x) or below (part code 4741N/x.057.x) the zone time digits and the names can be either:

Printed in white - lowest cost option.
User programmable \& illuminated with 30mm (1.2")
All versions are 10/100Base-t Ethernet NTP enabled for simple, low-cost installation and control via your existing Ethernet network.
